SUBSCRIPTION \$2.00 PER YEAR

United Nations One Year Old

BY WALTER E. SIEBER,

The first year of its existence has given proof that the United Nations can be developed into a potent agency for peace by resolving international friction without resorting to use of force.

This rapidly developing year-old infant has given a very good account of itself already. Much better than many of us had dared to hope. The high idealism that was fundamental in the charter of the now-defunct League of Nations is absent in the U.N. Charter. But the failure of the League, still fresh in the memory of the world, has done much to spur statesmen to more earnest effort in facing the problems for which world organizations are created.

Perhaps it is wrong to say that the League of Nations failed. It may be much nearer to the truth to say that the member nations of the League failed to take seriously enough the fulfillment of the treaty obligation contracted by them under the League Charter.

General disarmament was one of its aims; but it did witness in the early days the beginning of a general armament race among League members as well as others. League members failed to take seriously enough the means open to them to restrain nations that engaged in territorial expansion programs by conquest of weaker nations.

But in the final analysis, defeat sentence was pronounced on the League, and a new World Organization was formed because one of the major trends of the world had wrapped its life in political football with this important question of adherence to the League of Nations, and this became "isolationism" towards the League's efforts to maintain peace.

Nothing has been achieved by the U.N. that could not have been quite as well done under the old League's charter, but a new world organization gave it some "isolationist" a chance to "save its face" and at the same time play the part of leading advocate and power in the new U.N.

There is real cause for rejoicing in the achievement of this new world organization during the past year. A strong ray of hope is shining through the clouds which have wrapped our world in darkness, fear and chaos.

The Security Council of the U.N. does with a number of vexing problems last year: The dispute between Russia and Iran; the one arising from the presence of British troops in Greece and Indonesia; British and French troops in Syria and Lebanon. It also examined the accounts that France must be an immediate threat to world peace.

Parties to the dispute were brought together and solutions were found, or sought in mutual settlement, not by force. Herein lies the hope of the world. Peaceful negotiations eliminate the aftermath of bitterness and the world that force produces and which eventually results in more wars.

The general assembly of the 51 United Nations is to meet in the near future. Here, in this "town meeting of the World," the nations are given the opportunity to tell their problems to one another and talk them out in open meeting. The assembly has "power to discuss problems and make recommendations" to the various councils.

The 18 member Economic and Social Council (Ecosoc), one of the six principal organs of the U.N. Organization, faces the most difficult task of the world today. Its effort should be in line in creating conditions for a peaceful world.

Every year deal with the problems of immigration and resettlement of war refugees; the homeless without means of subsistence when UNRRA has ceased to exist; reconstruction of devastated areas; prevention of epidemics.

In the economic field ECOFAC will be concerned with the removal of trade barriers, tariff problems; exchange control; quotas; cartel arrangements to be smashed etc.

Along with them it has already taken the first steps to deal with the refugee problem and that of displaced persons. Under its direction an international health conference was called last summer, and this is already at work planning a world health

News Items of Local Interest

Mrs. Pauline and Joy Stemetz have left for Banff where they will attend school.

Miss Grace Dehaynes of Calgary spent this holiday in town visiting his parents Mr. and Mrs. P. Dehaynes.

Miss Rosy Woods of the staff of the Gleichen Pharmacy spent the week end in Calgary.

Mrs. Bowen of Kinross who is at present visiting Mrs. A. N. McLevy, is leaving shortly to visit her sister, Mrs. St. Cyr in Loomister, Mass., for a period of six months.

That entrepreneur who has been doing well at moon is not the efforts of two Jews trying to collect their money from a Scotchman, but the new fire whistle announcing that it is dinner time.

Mrs. Hutton is the happiest woman in town this week after working as relieving agent for the Crown Lumber Co. Ltd., for the past six months. She has retired to her dorian and she has the perfect dorian hands to silvered ones. Mrs. Hutton had the misfortune to lose half of his thumb in the spring of 1945, but he had to have another piece amputated.

The hot lazy days ended with August and September usher in the busy month of fall and winter. Harvesters work from dawn till dusk; the clouds which have wrapped our world in darkness, fear and chaos, are hard at work and the children are in school. The housewife keeps her preserves on the stove.

OBITUARY

MRS. HATTIE KRUGER

Mrs. Hattie Kruger, mother of Mrs. E. Lester, Gleichen, died rather suddenly in Calgary Monday morning at the age of 79 years. Mrs. Kruger came to Gleichen from Minnesota about 25 years ago and lived here for several years before coming to Calgary where she has lived since that time.

Mrs. Kruger is survived by one son, Leo of Calgary; five daughters, Mrs. D. Laidridge of Calgary, Mrs. Tennor of Camrose, Mrs. Van Winkle of High River, Mrs. Johnson of Seattle and Mrs. E. Lester of Gleichen.

The funeral took place in Calgary this morning at ten o'clock.

MRS. AGNES BEAUPRE

Mrs. Agnes Beaupre a former resident of Gleichen died in Calgary last week. She came to Gleichen with her parents 50 years ago from Birle, Manitoba. In 1921 the store and home which she occupied was destroyed by fire and shortly afterwards she moved to Calgary where she since lived. Mrs. Beaupre is survived by her husband; two daughters, Mrs. McCaffrey and Mrs. McKenist of Calgary and two sons, Victor of Prince Albert and Sgt. Charles with the R.C.A.F. at Almer, Ont.

organization for the prevention of epidemics and seeking solutions to other health problems. The far-flung field of its activities include making arrangements that will permit major international, and some special national organizations of labor, management and business, farmers and consumers to join in its work on a consultative basis. But the question of the effectiveness if the Security Council, handicapped as it is by the veto power which may be exercised by any member of the big 5, known as the "permanent members" of the eleven member council, looks less promising.

The U.N. Atomic Energy Commission has not yet found a formula for the control of atomic power that is acceptable to its members, but it is still at work.

No miracle has been performed by U.N. during its first year of existence but we believe that hope has been measurably brightened by the manner in which it has approached its problems dealing with world peace.

Do You Remember Twenty Years Ago

M. Bolinger's garden east of town is a sight worth any person's while visiting. It's a beauty and shows what can be done with irrigation.

Mr. and Mrs. J. W. Sheppard of Saskatoon have arrived in Gleichen to visit their daughter Mrs. R. C. Clifford. In a few days they will proceed westward.

Friday a big grain separator leaving town for the south passed down Crowfoot Street ripping out electric light wires that hung across the street. Pete Rishaug had it restored in short order but before a few loud cars words were waved on the gentle zephyrs.

C. A. Millie arrived from Piapot, Sask., Monday on business and to visit his friends.

Mr. and Mrs. John McEwen have returned from a short visit to Chealey, Ontario. They have since left for Medicine Hat.

Mr. M. C. Chalmers has leased the McQueen house.

Mike to have both a new church and school The church building is now going up.

Rev. Mr. Gibney and Mrs. Baize, Jr., have left on a motor trip to Drumheller and other northern points.

Miss Emma Jones arrived last week from Edmonton to spend a short visit with her parents.

Geo. Scott returned Saturday from Toronto and other eastern points where he has been since last winter visiting friends.

Several Salvation Army officers have been in town the past week and have started the work of remodeling the agricultural school building as a home for aged people.

F. E. Polak has bought the thirty acre choice land a mile west of town known as the Pioneer Stock Yards from C. Bartock. He will start a fox farm on the property.

Those who acquire the habit of keeping the interests of their community always before them will find their personal interests best served.

We want to say a good word for the man who meets his small obligations promptly. They are not as plentiful as they should be and the man needs encouraging. Most men will not but fewer will pay promptly. Almost any firm will testify that, counting the time, postage, looking, and like, it costs some accounts to be late to collect them, and the man owing it to them is perfectly reasonable in a financial way. It very often happens that the man who is sinner in this particular is the man best able to pay.

Police Sergeant—"Is the man dangerous, would?"

Patrolman—"Two of the wounds are fatal, but the other one isn't so bad."

ST. ANDREW'S CHURCH

Sunday, September 8th,
Holy Communion, 11 a.m.

Cluny Service at 2 p.m.
Gleichen Service at 7.30 p.m.

U.F.W.A. Meeting

The U.F.W.A. regular meeting was held at the home of Mr. H. Stuts last Thursday afternoon when there were 17 members and three visitors present.

The minutes of the previous meeting were approved. It was announced that an orchestra has been engaged to play for the dance to be held on October 18th. It was decided to order three dozen cook books. Highlight were read and enjoyed by all present. Current events also proved interesting. Accounts were ordered paid. Bingo was then played and 12 of the members were present. The next meeting will be held at the home of Mrs. Chardran on September 12.

Community Theatre

—COMING ATTRACTIONS—

Sat., Sept. 7—CORNERED—Dick Powell—Walter Slezak—Anne Harter.

Fri. and Sat., Sept. 13 and 14—SPELL BOUND—Gregory Peck—Ingrid Bergman. A truly great picture.

RATION BOOK 6

Issued between September 9th and 16th

Distributing Centres will not be open on all days during this period. So—MAKE SURE that you know exactly what days and hours the Distributing Centre you intend to go to will be open. See list of Distributing Centres below.

RATION BOOKS WILL NOT BE MAILED OR DELIVERED—THEY MUST BE CALLED FOR

Then Take Your Ration Book 5 with the Application Card 8B-191 Still Attached, Properly Completed and Signed, to a Distributing Centre and Ration Book 6 Will Be Given You.

ADULTS MUST APPLY FOR CHILDREN

Children under 16 may not apply for their Ration Books or those of others.

APPLYING FOR OTHERS

Any responsible person over 16 may apply for Ration Books for other members of their family or neighbors, providing above requirements are complied with.

ARMED FORCES

Members of the Armed Forces will continue to obtain their Ration Cards from their own units.

WHEN AND WHERE YOU GET IT

LOCAL DISTRIBUTING CENTRES

Addresses Dates Hours
GLEICHEN: Community Hall Sept. 12 10 a.m. to 4 p.m.
Sept. 13 10 a.m. to 4 p.m.

Sixty Years Of Progress

THIS YEAR MARKS THE SIXTIETH ANNIVERSARY of the founding of the Experimental Farm system in Canada, and in observation of this milestone tributes have come from all parts of the country to the work which has been carried on in the interests of agriculture for over half a century. When the system was inaugurated in 1886, the position of Canadian agriculture was far from prosperous. The great wheat-growing areas of the West had not yet been developed, sixty thousand acres in the Red River Valley being the only wheat crop grown in the West at that time. In the whole of Canada only 45 million acres were then under cultivation, as compared with 174 million acres today. Exports of wheat in 1886 amounted to \$200,000 bushels, nearly all of that being from Ontario, while we now export nearly 300,000,000 bushels, mostly from the Prairie Provinces.

Brilliant Work Of Dr. Saunders

The founding of the Experimental Farm system in Canada inevitably brings to mind the work of the noted scientist, Dr. William Saunders, who was the first superintendent. Dr. Saunders' brilliant work in plant breeding, which led to the discovery of Marquis and other varieties of wheat suitable for the climate of Western Canada, is well known. As a direct result of his studies the Canadian wheat became one of the great wheat-producing areas of the world, and Canadian agriculture as a whole advanced rapidly. Dr. Saunders' work was not concerned entirely with wheat, but extended to problems connected with the growing of trees, shrubs, fruits and vegetables in regions where the climate was not considered favourable for their cultivation. He had much success in introducing varieties of plants which could be successfully grown on the Prairies and in northern regions.

Tradition Has Been Upheld

The tradition established by Dr. Saunders has been carried on, and the Dominion Experimental Farms today make a valuable contribution to the progress of agriculture in all parts of the country. The importance of scientific knowledge in dealing with farm problems has been proven many times over. The Dominion Experimental Farms have kept before the farmers the most up-to-date knowledge on methods of dealing with plant and animal diseases, new breeds of plants, the latest developments in agricultural engineering, and countless other matters relevant to farm work. Plans are now under way to further expand the work of the Experimental Farms throughout the Prairie Provinces, in connection with soil drilling, the use of new varieties of crops and the use of the latest cultural methods. This service, inaugurated sixty years ago, has indeed been of great value both to agriculture and to the country as a whole, for, in the words of Dr. E. S. Archibald, superintendent of the Dominion Experimental Farms: "Without a prosperous agriculture there can be no prosperous urban community."

Medical Cures Outcome Of War
Many Young People In B.C. Would Study Medicine
There are at present about 125 young people in British Columbia ready and eager to enter upon medical courses. If a medical faculty is not started at Point Grey within a reasonable period, most of these young people—many of them returned servicemen—will be denied the privilege of studying medicine. They cannot be accommodated in other colleges because there is no room for them there. We have depended for too long upon the schools on the prairies and the East and in the United States to educate our doctors. Now we are thrown upon our own resources.

WATER FOR CATTLE

Average Cow Needs Ten To Fifteen Gallons Of Water Per Day
Veterinary authorities state that for the highest production of milk the importance of a continuous supply of drinking water for the cows cannot be over-estimated. Experiments in Canada, United States, Britain and other countries have shown that milk production was higher from cattle with water available to them throughout the day than from cattle which had access to water only once or twice a day.

It is estimated that the average cow needs from 10 to 15 gallons of water per day. High producing cattle, such as those producing, say, 10 gallons of milk per day, may consume up to 30 gallons of water per day. Where dry feed, such as hay or chaff and concentrates is being fed, the cows would take 10 to 15 gallons of water as such. However, where the cows are on pasture and quantities up to 130 pounds are known to be eaten, water would be taken in smaller amounts. One hundred and thirty pounds of pasture would probably contain about nine or ten gallons of water. If silage was used, pounds of that material would probably contain about 3 1/2 gallons of water.

HOME FROM GERMANY—A few weeks' visit that stretched into seven years is the experience of Mrs. Emma Jurgens of Kitchener, Ont. In 1939 Mrs. Jurgens went to Germany to attend her daughter's funeral. Outbreak of war caught her in Hamburg, and she spent the entire war there. Houses around her own house hit. Glad to be home again after the privations of war in Europe, Mrs. Jurgens says happily: "Canada seems too good to be true." She declares that Canadian soldiers have proved the most popular occupation troops in Germany.

More Population

Is Needed By Canada To Develop The Country
Increased immigration is necessary because it is obvious that 12,000,000 people cannot continue indefinitely to own, develop and defend a country as large and as rich as Canada. Increased immigration means also that the domestic market is enlarged and that is important in view of the post-war improvements being made industrially and agriculturally in other countries. The 1,000,000 Polish farm workers now being admitted will be the first contingent of a long-term movement needed to provide the population Canada must have to derive the full benefits from her size, position and natural wealth.

light-textured, tasty, more digestible!
ALWAYS FULL STRENGTH, ALWAYS DEPENDABLECAN WE PREVENT
FAMINE?

That is the heading of an article by Sir Arthur Salter in an issue of "Picture Post" London, England, just sent to us—dated May 1946.

As an authority (Sir Arthur Salter was deputy-director of U.N.R.R.A. 1943-44) he goes on to point out that total famine which may bring starvation to millions now faces a large part of Europe, India and the Far East. As a unit of measurement applied to every individual the daily consumption of calories is the universal

A summary of the chart accompanying the article, gives the food intake of the various peoples at that date. Figures show average daily consumption in calories. 1,000 means severe shortage, 2,000 means slow starvation.

U.S.A.	3000-3400
South America	3000
Denmark	2800-2900
Sweden	2800-2900
Switzerland	2800-2900
United Kingdom	2800
New Zealand	2800
Turkey	2500
Norway	2500
Holland	2300-2500
Belgium	2300-2500
France	2300-2500
Finland	Less than 1800
Hungary	1800
Spain	Under 1800
Rumania	Under 1800
Portugal	Under 1800
Italy	1400-1600
Russia	Not known
Czechoslovakia	Under 1500
Austria	1200-1300
Greece	1100-1400
Yugoslavia	770-1900
China	1200
Japan	1000
India	1200
Germany	U.S. zone 1600
French zone	1100-1400
British zone	1045

As these above figures are quoted (in May 1946) there was great hope that crops in the U.S.A., Canada, etc., could be supplied to the hungry, but great difficulties are being experienced from many angles, not the least of which are upset conditions and paralyzed communications in the countries which need the most help.

Even England is running low on bread and cereal grains now. The monsoon rains failed in the East, and no monsoon means no rice which is the food of millions.

"Can we prevent famine?" for those poor unfortunate who did not want war, did not start it, but are to be victims by the million nevertheless?

NEW HOCKEY LEAGUE
CALGARY: The Kootenay Hockey League is no more, but a new circuit called the Western International Hockey League, will be formed with five teams, Trail, Nelson, Kimberley, Spokane and Los Angeles. This announcement was made by Fred Holger, manager of the Los Angeles Ramblers, who was in town looking for hockey players. Mr. Holger said the new league opens Oct. 26.

NURSES!!
This new medicine is very effective in relieving pain, reducing fever, and "bringing out" the toxins of "certain types" of infection. It is a female formula monthly dose. Write now.

Wheeler Newspaper Syndicate

"The commissioner said wearily, 'Look, Steve, we've got to have action—understand? The crime wave is growing worse by the hour. I know you're busy, but that won't cut ice with the mayor. He's demanded results. Now it's our move.'"

Police Captain Steve Brant leaned back in his swivel chair. Piles of newspaper clippings and photos of wanted men littered his desk. A detailed map of the city was spread out before him.

"These hold-ups are all the same," continued the commissioner, "and they have the nerve to stick around the city. We've got to get 'em. We'll get 'em." Steve's voice was resolute. "These things take time, you know. Convince the mayor. I agree, but you're taking too long. Far too long."

"I can't be helped. We're not police-men," the commissioner said. "I don't care what you are. You better do something quick or make room for someone else." Steve's retort died on his lips as the commissioner spun on his heel and left. Steve made a mental sum-of-the case as it stood to date. About a month ago, the two men from the standpoint of animal nutrition. In gross value they actually had a slight edge on the Newman pointed out, but they did not play a very important part in international trade as they were largely consumed in Canada by farm animals.

While wheat remained the most important single grain by reason of its almost universal use as food, oats and barley, and to a lesser extent rye held first place as a group from the standpoint of animal nutrition. In gross value they actually had a slight edge on the Newman pointed out, but they did not play a very important part in international trade as they were largely consumed in Canada by farm animals.

In feeding value for live stock, oats held a very high place. They ranked first in popularity as a horse feed and stood high as a food for cattle. They actually constituted the bulk of the feed for the Newman pointed out, but they did not play a very important part in international trade as they were largely consumed in Canada by farm animals.

their own dirty work. Good cops weren't made overnight. They all had to learn.

He hung for a prowl car brought from the garage. This might be his last day; his last chance to view the city from the seat of a police cruiser. Drury was ruthless. More than one had learned that the hard way.

As he prepared to leave the phone rang. The desk sergeant was on the line, babbling over with excitement. "The Black Hoods—Young Stark caught 'em! He needed help but he gets the credit—later found their weapons, hoods and all!"

"A marvelous piece of work," the commissioner was saying. "Who tipped you off, Stark?"

The rookie shook his head. "No body sir," proudly. "I treated them under Section Five, Sub-section Two of the city by-law."

"Section Five?" Steve gasped. The commissioner looked puzzled. "What's that cover?"

"Spittin' on the sidewalk," the rookie said.

"What's that cover?"

"Spittin' on the sidewalk," the rookie said.

"What's that cover?"

"Spittin' on the sidewalk," the rookie said.

"What's that cover?"

"Spittin' on the sidewalk," the rookie said.

"What's that cover?"

"Spittin' on the sidewalk," the rookie said.

"What's that cover?"

"Spittin' on the sidewalk," the rookie said.

"What's that cover?"

"Spittin' on the sidewalk," the rookie said.

"What's that cover?"

"Spittin' on the sidewalk," the rookie said.

"What's that cover?"

"Spittin' on the sidewalk," the rookie said.

"What's that cover?"

"Imagine a week-end without delicious Grape-Nuts Flakes!"

"I can't imagine it brother! Step on it and I'll provide a police escort down the stairs so you'll be sure of getting your mally-rich, sweet-as-a-candy Post's Grape-Nuts Flakes!"

"Off—here we go! Bring on that Grape-Nuts Flakes good morning! carbohydrates for energy, protein for muscle, phosphorus for teeth!"

"We were rushing to the grocer's before closing time..."

Wheat Is Important

But Oats, Barley And Rye Excel It In Gross Value

New rust varieties now being introduced are destined to make oat growing in Canada a safer and more profitable occupation and thus place the crop as such on a still higher level among Canada's great natural assets, said Dr. L. H. Newman, Dominion Cereals, in discussing Cereals, in the Agricultural Institute Review.

While wheat remained the most important single grain by reason of its almost universal use as food, oats and barley, and to a lesser extent rye held first place as a group from the standpoint of animal nutrition. In gross value they actually had a slight edge on the Newman pointed out, but they did not play a very important part in international trade as they were largely consumed in Canada by farm animals.

In feeding value for live stock, oats held a very high place. They ranked first in popularity as a horse feed and stood high as a food for cattle. They actually constituted the bulk of the feed for the Newman pointed out, but they did not play a very important part in international trade as they were largely consumed in Canada by farm animals.

SELECTED
RECIPES

CREOLE FUDGE LOAF (1 XE)

1 1/2 cups sifted Brown Sugar
1/2 cup butter
1/2 cup Calumet Baking Powder
1/2 teaspoon salt
1 cup sugar
1 egg, well beaten
2 squares Baker's unsweetened chocolate, melted
1/2 cup milk

Sift four cups, measure, add baking powder and salt, and stir together in one mass. Cream shortening, add sugar gradually, and cream together until light and fluffy. Add egg and beat well; then add chocolate and blend. Add flour, alternately with milk, a small amount at a time, beating after each addition until smooth. Add vanilla. Bake in greased pan, 35x2x2 inches, in slow oven (325 F.), 1 hour, or until done. Spread icing on top.

CHEESE WAFFERS
1 cup butter
2 cups grated soft cheese
1/2 teaspoon Worcestershire Sauce
Paprika
3 drops Tobacco Sauce
2 cups oven-popped rice cereal
1/2 cup sifted flour

Blend butter and cheese thoroughly, add Worcestershire and Tobacco Sauce. Roll cereal into fine crumbs, mix with flour and add to cheese mixture. Shape into rolls 1/2 to 1 inches in diameter; wrap in waxed paper; chill in refrigerator for two hours, or until firm. Slice into wafers 1/4 inch thick. Bake on ungreased baking sheet in a moderate oven (375 deg. F.) for 15 minutes. Sprinkle with paprika. Yield: 60 wafers, 1 1/4 inches in diameter.

Real Old-Timer
British Ship Built in 1815 To Be Broken Up

Almost the last of Britain's "wooden walls" the old ship Cornwall—so to be broken up at Gravesend on the River Thames and its timbers used for furniture. Built in Bombay in 1815, the Cornwall was launched as a 74-gun ship. In 1840 it was converted to a training ship for boys.

The ship last saw action when a bomb fell near it in 1940, ripping a hole in its hull. The German raider had "severely damaged a British warship," Christian Science Monitor.
